University of Central Florida
B.S. Information Technology

August 2018 – May 2020
GPA: 3.93

Seminole State College
A.A. Information Technology

August 2014 – April 2017
GPA: 3.80

EXPERIENCE

Creator – woofbot.io

November 2018 – Present

Deployed a web service that generates dog pictures. Created a scraper tool that downloads pictures of dogs and produced a REST API along-side documentation for any developer to generate dog pictures based off their breed preference. Launched a Discord chat bot utilizing the API that is currently in over 60 Discord servers (over 20,000 total members).
(Angular 6, Node.js, Express, REST API, HTML/JavaScript, PHP)

Creator – SecretElo.net

October 2016 – Present

Created and currently maintain a website used as a middle man website to help connect high-skilled gamers in a multiplayer online game to raise the ranking of people's accounts for money. Deployed a real-time live chat application utilizing WebSockets for vendors to communicate with clients. Website has brought in over \$50,000 which includes invoices from 1500 unique users.
(PHP, HTML/JavaScript, Laravel 5, Vue.js, MySQL)

Creator – Anonify

January 2017 – June 2017

Created a Virtual Private Network service that was sold on several different gaming forums. Developed backend C&C server utilizing PHP for VPN user authentication.
(PHP, HTML/JavaScript, MySQL, RADIUS, OpenVPN)
